

You are our Partner

Become a Value Adding Reseller with our modular concept for air-insulated medium-voltage switchgear.

Answers for energy.

SIEMENS

As a Value Adding Reseller, you are our partner

When it comes to getting a quick, certain competitive edge in medium-voltage, you can rely on Siemens. Our technological expertise guarantees you top performance for the modular switchgear concept – from fully assembled switchgear with no low-voltage compartment to pure vacuum circuit-breaker on a truck or on a withdrawable unit.

As our partner, you will benefit from our proven technologies, our reliable products, type tests, and our decades of experience around the world.

A reliable partnership for your success

When you use and resell our medium-voltage products in your projects, you benefit in many ways.

Physical offerings:

- Fully type tested switchgear and vacuum circuit-breaker SION
- Absolutely reliable technology and products
- The best solution for the particular task – from fully assembled switchgear with no low-voltage compartment to pure VCB on a truck or on a withdrawable unit
- Superior delivery quality

Non-physical offerings

- Consulting and technical assistance
- Design drawings, blueprints & documentation
- Production training and support
- Configuration using a proven engineering tool
- Test certificates
- Product updates
- Marketing support

Lower your design costs

Of course, using our products also pays off in significantly lower design costs. After all, as our partner you can count on internationally competitive solutions that are state-of-the-art. The same is true for future standards, which we help define through our involvement in the decision-making bodies.

The IEC 62271-200, the new standard for medium-voltage switchgear, is a good example. Using our medium-voltage products, which always represent the latest state of design in technology, safety and reliability, also helps you reduce your costs.

Reliability involves more than just products

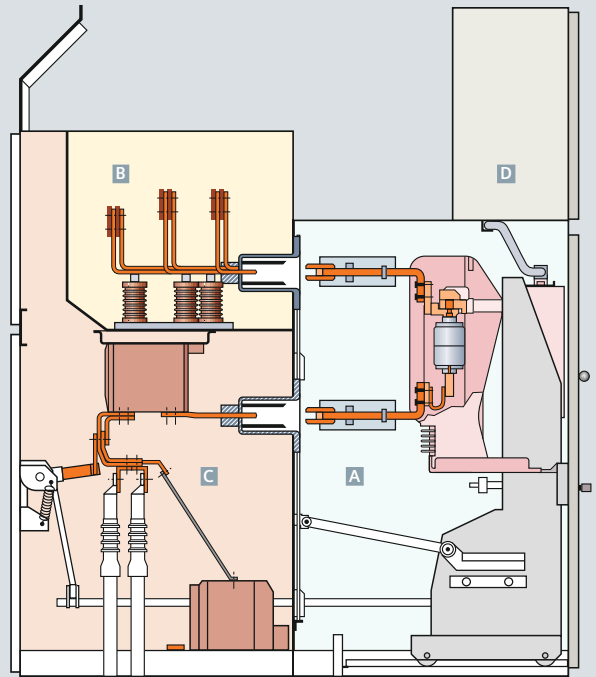

You can rely on Siemens as a dependable partner who has stood for the highest level of knowledge in electrical engineering for over 160 years. Our long experience in the production of vacuum circuit-breakers and panels means that you get best-in-class support for your production.

Improve your engineering and marketing – with Siemens

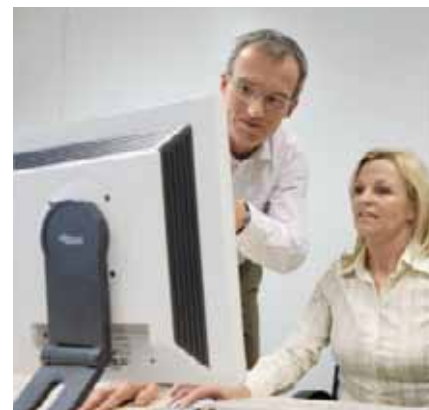

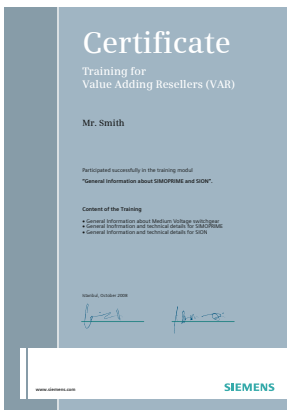

As a Siemens Partner, you'll benefit from our broad range of products, our knowledge of engineering and our configuration tools. In addition, we can support you with your own marketing activities.

Sometimes profitability depends on having the right partner. We want to improve your business opportunities and help you on your way to becoming a successful partner.

Modular air-insulated switchgear

- A Switching device compartment
- B Busbar compartment
- C Connection compartment
- D Low-voltage compartment

Scope of Supply

Range of products (SIMOPRIME panels)

	SIMOPRIME 12 kV		SIMOPRIME 17.5 kV	
	600 mm	800 mm	600 mm	800 mm
40 kA Version	–	■	–	■
75 kV BIL/95 kV BIL	■/■	■/■	–/■	–/■
Vacuum circuit-breaker on a truck	■	■	■	■
Vacuum circuit-breaker on a withdrawable unit	■	■	■	■
Earthing switch module	■	■	■	■
Switching device compartment	■	■	■	■

Further offerings

Vacuum circuit-breaker, instrument transformers, earthing switch, fuses, contactor, contactor-fuse combination, outdoor equipment and Retrofit. All parts and devices which you need in the field of medium-voltage.

Phase concept

We would like to enable our partner to choose the degree of value add on his demand for completion of the panel. Therefore the concept is build up in three steps of value add which can be easily adapted.

The main reasons to become a Value Adding Reseller for our air-insulated medium-voltage switchgear SIMOPRIME are:

- Reliable partnership
- Type tested components
- Excellent Service

VAR value add part

Siemens value add part

Phase III	Switching device compartment
Phase II	Panel without low-voltage compartment, current transformer, voltage transformer and copper
Phase I	Panel without low-voltage compartment
