

Siemens Energy – Customer Magazines

The latest information and background for energy leaders

Living Energy
The magazine is tailored to the needs of energy leaders, with in-depth reports on innovations, trends, and applications. It covers market news from the perspective of customers, experts, and Siemens representatives.

www.siemens.com/energy/living-energy

Venture
With its variety of news and project features the magazine leads technical decision makers into the world of industrial turbomachinery and oil and gas solutions.

POWER-GEN Europe	Milan, Italy	June 7–9, 2011	www.powergeneurope.com
Intersolar Europe	Munich, Germany	June 8–10, 2011	www.intersolar.de

Compliance HelpDesk “Tell us”

In order to justify the trust placed in Siemens by customers, partners, shareholders and employees, the integrity and transparency of business processes is the top priority. For this, it is essential for Siemens to find out about any breaches, particularly contraventions of the Business Conduct Guidelines. The “Tell us” function provides worldwide 24/7 facilities for making statements, either online or by telephone, and in any of up to 150 languages. The call center and the website

facilities are operated by an external provider specializing in the secure and confidential handling of sensitive content. Incoming messages are not traced, neither is the sender automatically registered.
